To Whom It May Concern:

Southampton Hospital Case Management uses Seniorcare Companions for many of our discharge plans for our patients.

Seniorcare Companions have been very helpful in staffing cases with quality workers in a prompt efficient reliable way. This is appreciated by our patients and families as well as keeping our length of stay favorable for patient and hospital.

There is a need for companies such as Seniorcare to be approved by all the intermediaries for the benefit of the communities we serve.

Thank you,

Sincerely,

Sharon DiSunno, R.N., M.S.
Vice President Quality Management
